Protecting Your Food Against Plastic Contamination

Since 1985

In Partnership with

Worldwide Distribution Network

At BST we understand what it means to have a global reach. Our expanding worldwide network of distribution partners means that BST products are currently available in 82 countries.

Working closely with our distribution partners means we can identify product improvements and develop engineering solutions, constantly evolving our product range and improving our service.

About BST

BST Detectable products reduce the risk of foreign body contamination in hygiene critical environments, such as food and drink, pharmaceutical or cosmetic manufacturing plants.

Preventing foreign body contamination is at the frontline of food safety and detectable products manufactured by BST not only help towards this goal but also comply with international regulations and complement a company's HACCP systems.

BST are proud supporters of the Made In Britain campaign, with many BST products a result of strong partnerships with British manufacturers. In fact, 70% of the detectable products in this brochure are manufactured right here in Great Britain by British Manufacturers.

With over 30 years experience in supplying the food industry, BST has grown into a global brand known for the quality of our products and the service we provide. BST launched our world famous DetectaPen® in 1994, and now supply over 1.8 million detectable pens per year, as well as supplying a wide range of other detectable products that reduce foreign body contamination risks to food processors across the globe.

Our ethos at BST is to build quality into every aspect of the business, from design and manufacture to logistics and support. Our highly experienced team places customer needs at the top of their priorities, whether that customer

is a small artisan baker, or a global distributor. We not only supply a standard range of stocked detectable products, but we can also utilise our extensive British manufacturing partnerships to develop bespoke engineering solutions to suit our customers applications and needs.

Our manufacturing resources and product expertise combined with access to a range of food grade detectable plastics and rubbers means that we have the resources to see through the most intricate bespoke detectable product developments.

As BST has grown and evolved, we have improved our environmental policy to match our global reputation. We now use recycled packaging for our distribution, have installed motion sensitive lighting in our modern warehouse facility, invested in eco friendly vehicles, and modified our production methods to be more energy efficient and lower our carbon footprint.

If you're looking for a supplier of detectable products that understands the importance of quality, safety, detectability, service and support then you need look no further than BST, the original pioneers and market leading supplier of metal detectable and x-ray visible products.

BST are proud to work in partnership with BRC global standards. Our products are intended to reduce foreign body contamination risks and improve food safety - they can help you with your BRC compliance. Quotes from BRC version 8 are referenced throughout this brochure for your convenience.

Contents

1	Stationery DetectaPen Range, DetectaMark Range, Metal Stationery, Stationery Accessories	6-13
2	Food Preparation Catering Knives, Scissors & Shears, Jugs, Scoops, Scrapers, Bag Clips, Paddles, Stirrers, Funnels, Buckets, Boxes, Brushes	14-21
3	Tools Shovels, Safety Knives, Cable Ties, Mallets, Stopwatch, Keyreel	22-27
4	PPE Hairnets, Beard Nets, Mob Caps, Beard Snoods, Over-Sleeves, Over-Shoes, Aprons, Gloves, Earplugs, Hair Ties, Glasses Cord, PPE Dispensers, Glove Guards, Utility Guards	28-31
5	First Aid Plasters, First Aid Kits	32-33
6	Traceability Loop Tags, Loop Tag Dispensers, Tie ID Tags, Labels, Security Tags	34-35
7	Test Pieces Acrylic Test Pieces, FDA Test Pieces, PTFE Test Pieces, Test Kits, Test Cards	36-38
8	Engineering Suction Cups, Retaining Clips, Lubricants, LPS Trigger Bottle, Detectable Cloth, Extrusions, Silicone Sheeting, Neoprene, UHMW-Pe, Seals, Gaskets	39-45
9	Antibacterial DetectaPens, Clipboard, Keyboard, Mouse	46

For more detailed information on our products and technical specification documents please visit the BST website at www.bst-detectable.com or call our sales team on +44(0)1302 775208. For prices on the products in this catalogue, please check your BST Pricelist, alternatively, you can visit the BST website. If you order through a BST distributor, please contact your local distributor for pricing information.

XDETECT®

Our flagship detectable plastic compound XDETECT, has benefited from over 25 years of technological refinement, making it one of the most advanced detectable compounds available on the market today. XDETECT plastic contains a special formulation of additives that result in a unique set of properties, which strive to meet our objective of developing the world's ultimate food safe plastic. Our formulation of XDETECT is the most detectable, strong, and colourful compound we have ever made. It is also our most extensively tested compound with food contact approvals including FDA approved ingredients & full migration testing against EU and Japanese standards. With added antibacterial technology, this plastic is the science behind our world famous DetectaPen Range. BST products made from XDETECT benefit from the following properties:

✓ Electromagnetically Detectable

XDETECT can be detected and rejected by industry standard in-line metal detection systems. It will even stick to a magnet, and has the same excellent material performance as regular polypropylene plastic.

✓ X-Ray Visible

Unlike many other detectable plastics, XDETECT contains an extra additive specifically designed for enhanced x-ray visibility. Customer feedback and independent testing has shown that our compound is highly visible in x-ray inspection applications.

✓ Shatter Resistant

The latest version of our compound is the toughest yet, designed not to shatter when exposed to harsh impacts, even in freezing conditions.

✓ Silver Ion Antibacterial Protection

As part of our ambition to achieve the ultimate in food safety, certain XDETECT products incorporate silver ion antibacterial technology. This technology is laboratory tested and proven to be effective against pathogenic germs and mould, including E Coli, MRSA and Salmonella. Antibacterial protection is built into our DetectaPen® range as standard.

✓ Bright Colours for Visual Detection & Colour Co-ordination

XDETECT is available in 9 bold and vibrant colours, making the plastic easy to spot as a foreign body with the added bonus of fitting into your production area colour co-ordination schemes.

✓ FDA & EU Food Contact Approval

XDETECT contains only FDA approved ingredients, and is fully compliant with the latest EU food contact regulations, including full migration testing against EU migration limits set out in regulation 10/2011.

1 Stationery

With pens and stationary items the most common products in use in manufacturing area's, BST have a large range of products suitable for use in all environments. Our products are designed to be as environmentally friendly as possible.

The BST DetectaPen has a long standing reputation as being the premier choice of factory writing equipment. Engineer Brian S Teasdale first invented the plastic detectable pen in 1994 and we've spent the last 25 years improving every aspect, resulting in what we believe to be the world's safest pen for use in food processing areas.

BRC Issue 8 Clause 4.9.6.2

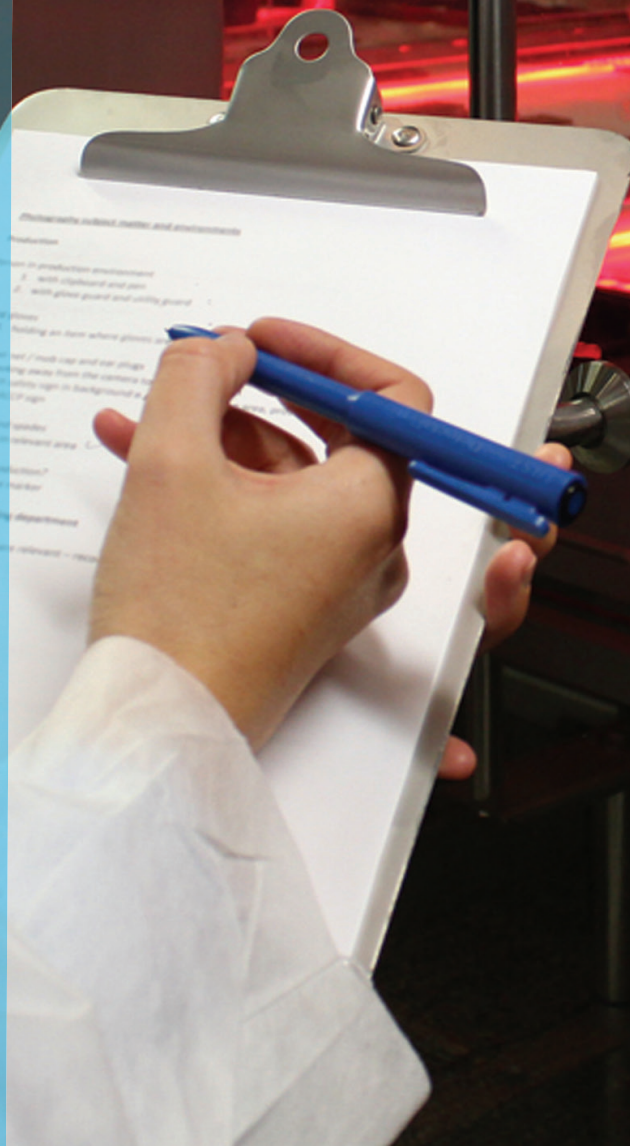

"Pens used in open product areas shall be controlled to minimise the risk of physical contamination (e.g. designed without small parts and detectable by foreign-body detection equipment)."

BRC Issue 8 Clause 4.9.2.2

"Staples, paper clips and drawing pins shall not be used in open product areas."

BRC Issue 8 Clause 4.10.1.1

"A documented assessment in association with the HACCP study shall be carried out on each production process to identify the potential use of equipment to detect or remove foreign body contamination"

Stationery ~ BST DetectaPen® Range

J800 Retractable DetectaPen®

J800 With Clip:	ST1J800D*
J800 No Clip:	ST1J810DB*
Body Colour:	B,R,G,Y,W,K,OR,PN,P
Ink Colour:	B,K,R,G
Pack Size:	25

Clipless option available in blue body only.

Gel Retractable DetectaPen®

Gel With Clip:	ST1J850D*
Gel No Clip:	ST1J860DB*
Body Colour:	B,R,G,Y,W,K,OR,PN,P
Ink Colour:	B,K,R
Pack Size:	25

Clipless option available in blue body only.

P950 Retractable DetectaPen®

P950 With Clip:	ST1P950D*
P950 No Clip:	ST1P960DB*
Body Colour:	B,R,G,Y,W,K,OR,PN,P
Ink Colour:	B,K
Pack Size:	25

Clipless option available in blue body only. P950 pens feature white insert as standard.

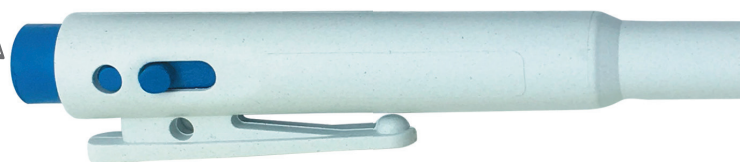

Metal detectable and x-ray visible

Constructed from shatterproof plastic

Solid one-piece, colour co-ordinated insert to indicate ink colour

Retractable mechanism and contain no small parts or springs

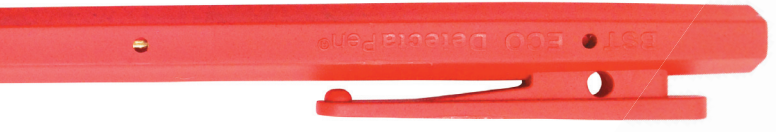

FDA & EU food contact approved

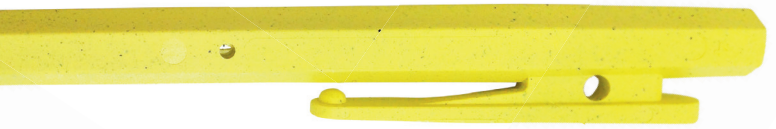

With or without clip are both lanyard compatible

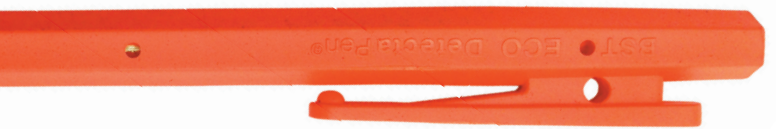

Stationery ~ BST DetectaPen® Range

Solid one-piece detectable pen

Unique hexagonal design to minimise the risk of the pen rolling

Lanyard compatible

Eco DetectaPen®

Brass With Clip:	ST1E210D*

Product Code:	PR1SS030MATEMB
Colour:	Blue
Dimensions:	250 x 200 x 3mm
Pack Size:	1

Metal Bodied Stopwatch

Product Code:	ST3ST232MS
Size:	Ø 56mm
Colour:	Silver
Pack Size:	1

Are you using the safest detectable pen for the job?

BST DetectaPens® are moulded from the unique XDETECT® plastic, which is an advanced polypropylene based compound, optimised for metal and x-ray detection in the food and pharmaceutical industry. Our retractable DetectaPens® feature no metal springs or small parts and are FDA and EU approved.

The P950 DetectaPen® features a fully pressurised cartridge, making them suitable for cold, damp and greasy food production areas. It can also write upside down! The J800 DetectaPen® features an unpressurised cartridge and is more suited for ambient temperatures.

Detectable Self Adhesive Tape

50m x 50mm:	PR6DAT50M*
50m x 25mm:	PR6DAT25M*
Colour:	B,R,Y
Pack Size:	1

BST Bespoke Printing Service

The BST DetectaPen® can be colour pad printed with your company name, logo, and details for promotional purposes. We can print on the upper and lower barrel of our DetectaPen® range and in up to three colours in one position! We also have the capability to mould your company name on the side of your BST DetectaPen®, subject to minimum order quantities.

BST also have the capability to print specific information for your company on to our loop tags. Our in-house printing service means we can offer bespoke layouts, QR codes, barcodes, sequential numbers, etc. With no minimum order quantity and no design charges.

As well as our standard heat and tear resistant paper tags, we can also print on to our detectable white labels and detectable tapes, available in blue, red and yellow.

2 Food Preparation

BST Professional knives are made in Sheffield, England and feature fully hardened and tempered stainless steel (420H) blades. The XDETECT polypropylene co-polymer handles are metal detectable, x-ray visible, food grade and available in nine colours. Both the blade and the handle can withstand rigorous sterilising and dishwasher use, and do not represent the potential health hazards that are frequently associated with other knives.

If you can't find the knife you need, please call our office to discuss your requirements and we may be able to develop a bespoke solution for you.

Mini Parer Knives

3" Parer Plain:	KN44500D*
3" Parer Serrated:	KN64500D*
4" Parer Plain:	KN44507D*
4" Parer Serrated:	KN64507D*
Handle Colour*:	B*,R,G,Y,W,K,OR,PN,P

Colour:	Blue
Pack Size:	1

The BST DetectaBox® is designed to address the problem of box fragments contaminating food products. This problem can occur whenever a food storage or handling box is subject to more wear and tear than usual and it is at risk of breaking or chipping.

The DetectaBox® is manufactured using XDETECT®, BST's flagship and industry renowned metal detectable and x-ray visible plastic. This plastic is designed entirely with food safety in mind. As well as being highly detectable it is also strong, hard-wearing, brightly coloured, chemical resistant, shatter resistant, FDA approved and EU compliant.

Other Colours & Sizes Also Available (subject to MOQ)

BST Handy Storage Trays

Small 350 x 250 x 65mm: TR12094-18DB

Large 420 x 320 x 90mm: TR12095-14DB

2. 400 x 50mm - 0.35:	BRN18215206TB
3. 230 x 35mm - 0.60:	BRN18240157TB
Broom Handle:	BRN1SSH2135DB
Handle Size:	Ø 32mm x 1500mm
Colour:	Blue/Silver
Pack Size:	1

**Please note, the handle is non detectable plastic*

Squeegee & Handle

Squeegee:	SQPLSB60DB
Size:	600 x 55 x 95mm
Handle:	BRN1SSH2135DB
Size:	Ø 30mm x 1348mm
Colour:	Blue/Silver
Pack Size:	1

3 Tools

The BST range of detectable shovels offer extra protection when moving large amount of raw ingredients. If you're unsure which one would work best for you get in touch and one of the team can bring along the range to your site and discuss which product best fits your requirements.

Safety Knives, Pocket Knives, Retractable Knives, Reusable Knives, Disposable Knives...here at BST we stock a massive variety of detectable knives! Our knives have an array of specialties and differing food contact approvals – so if you're a substantial user of knives within the food processing industry, it may be worth giving us a call so that one of our friendly advisors can visit your site, armed with a selection of samples, so that you can inspect and try before you buy.

BRC Issue 8 Clause 4.9.2.1

“There shall be a documented policy for the controlled use and storage of sharp metal implements including knives, cutting blades on equipment, needles and wires. This shall include a record of inspection for damage and the investigation of any lost items. Snap-off blade knives shall not be used.”

Tools ~ Shovels

Small Blade Hand Shovel

Product Code:	SH1HS3SLM*
Size:	242 x 264 x 478mm
Colour:	B,R,G,Y,W
Pack Size:	1

Standard Blade Hand Shovel

Product Code:	SH1HS3SSM*
Size:	247 x 315 x 527mm
Colour:	B,R,G,Y,W
Pack Size:	1

Small Blade T Grip Shovel

Product Code:	SH1SH4TLT*
Size:	242 x 264 x 917mm
Colour:	B,R,G,Y,W
Pack Size:	1

Standard Blade Shovel

D Grip (as shown):	SH1SH4DST*
T Grip:	SH1SH4TST*
Extended D Grip:	SH1SH4DET*
D Grip Size:	247 x 315 x 978mm

Large Blade Shovel

D Grip (as shown):	SH1SH4DGT*
T Grip:	SH1SH4TGM*
Extended D Grip:	SH1SH4DELM*
D Grip Size:	334 x 410 x 1035mm
T Grip Size:	334 x 410 x 1022mm
Extended Size:	334 x 410 x 1159mm
Colour:	B,R,G,Y,W
Pack Size:	1

One Piece D Grip Shovel

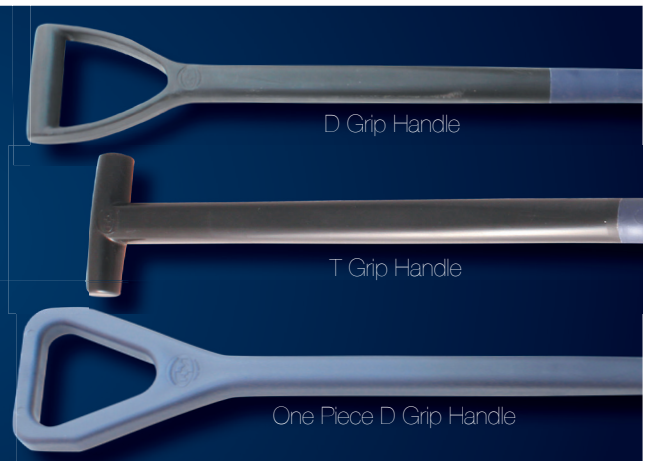

Large One Piece:	SH1SH4D1GM*
Standard One Piece:	SH1SH4D1SM*
Large Size:	347 x 410 x 1100mm
Standard Size:	279 x 362 x 1107mm
Colour:	B,R,G,Y,W
Pack Size:	1

BST Shovel Range

Our range of shovels are specifically developed for the food processing industry and use a specially formulated high impact, food grade polypropylene.

The strength of this shovel makes it virtually unbreakable, as well as being lightweight, easy to clean and store, offering excellent wear resistance, and reduces the risk of damage to floor surfaces and machinery.

Profi 25

Product Code:	KN51PR25905MB
Colour:	Blue
Pack Size:	1
Suitable For:	General Use

ReAkta

Product Code:	KN31R5808MB

BST Security Tags

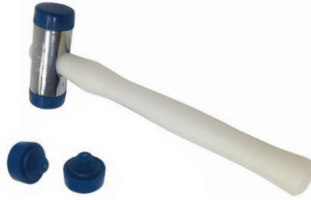

These single use 'pull tight' security tags are sequentially numbered and ideal for sealing ingredient sacks, tote box lids, roll cages, marking assets, identifying keys and tracking products, as well as an infinite number of other traceability applications.

The tags tear off feature allows it to be removed without cutting tools, which enhances health and safety by removing the need for cutting tools, also eliminating the cost of such tools. The tags can be found on page 35.

Colour:	Silver
Pack Size:	1

Introducing the BST Fully Detectable Mallet

Solid two-piece construction to minimise the risk of contamination

4 PPE

Where detectable PPE is required, BST have a full range of products to meet your requirements and protect your environment from potential contamination issues.

Controlling hair contamination is a top hygiene priority for food producers and is a requirement according to BRC Issue 8 Clause 7.4.2. Hairnets and Mob Caps can accidentally or deliberately cause their own foreign body contamination by becoming a contaminant themselves!

Our detectable head wear features either metal clasps or aluminium foil strips, both of which give highly strong metal detector readings, which subject to correct configuration will cause an automatic product rejection and/or alert the production team to the problem.

BRC Issue 8 Clause 7.4.2

Protective clothing shall be available that:

- Is provided in sufficient numbers for each employee.
- Is of suitable design to prevent contamination of the product (as a minimum containing no external pockets above the waist or sewn-on buttons).
- Fully contains all scalp hair to prevent product contamination.
- Includes snoods for beards and moustaches, where required, to prevent product contamination."

5 EASY STEPS TO CORRECTLY WEAR YOUR HAIRNETS & BEARD SNOODS

1 Hold the Beard Snood with the closures east to west, holding the elastic in one hand and the body of the Beard Snood in the other. Locate the elastic to the back of the head and make sure the Beard Snood covers the nose.

3 Before donning the Hairnet, brush and tie the hair back. Make sure it's not tied too low down, as the Hairnet elastic needs to lay flat against the neckline.

2 Locate under the chin and ensure the elastic is over the ears. The Hairnet should not be put on first as the Beard Snood closures are covered by the Hairnet. This provides extra security and ensures the Beard Snood is kept in place.

4 With the closure north to south hold the Hairnet open ready for donning. Wearing it this way pulls the meshes closer together. Locate across the forehead and pull the Hairnet over the crown, ensuring all hair in the nape of the neck is covered. Locate under the ears, to keep the Hairnet securely in place.

5 Check all hair is fully enclosed, that the double elastic headband is laying flat and is located under the ears. If necessary get a colleague to double check. Put on other PPE after the Hairnet has been donned. This ensures that any hair dislodged by adjusting, isn't taken into the workplace.

5 First Aid

BST offer a selection of first aid kits and detectable plasters, ideal for food production environments. We offer the standard workplace BS-8599-1 first aid kit, as well as a catering first aid kit which includes detectable plasters and blue nitrile gloves.

BRC Issue 8 Clause 7.2.3

“All cuts and grazes on exposed skin shall be covered by an appropriately coloured plaster that is different from the product colour (preferably blue) and contains a metal detectable strip. These shall be site issued and monitored. Where appropriate, in addition to the plaster, a glove shall be worn”

6 Traceability

BST metal detectable loop tags are designed to address foreign body contamination concerns associated with regular paper traceability tags used in food processing environments. The heat resistant tags are metal detectable, self-locking, heat resistant to at least 250°C of dry oven heat and are available in two standard sizes with 8 standard colours.

The BST XDETECT® Tie ID Tag are suitable for a variety of applications including the tagging of machinery and other assets. As well as being metal detectable and x-ray visible, these tags are also highly shatter and snap resistant, making them less likely to cause contamination.

The BST single use 'pull tight' security tags are sequentially numbered and ideal for sealing ingredient sacks, tote box lids, roll cages, marking assets, identifying and tracking products, as well as an infinite number of other traceability applications. The tags tear off feature allows it to be removed without any cutting tools.

BST Bespoke Printed Loop Tags

BST have the capability to bespoke print onto detectable Labels, Loop Tags and Tape.

Our Standard and Heat Resistant Loop Tags can be supplied pre-printed with the standard print or we can print to your exact requirements.

We can include sequential numbering, barcodes, QR codes, your company name, logo, website and telephone number.

With no minimum orders you can have as little as one roll!

Please contact the sales team for further information.

7 Test Pieces

Our wide range of detector pieces and x-ray test cards are available with various sizes and types of contaminant, to suit many applications. All are calibrated and certified to BS EN ISO 9002 and UKAS calibration.

Regular performance testing of both metal and x-ray inspection equipment is an essential component of a Quality Control Management System. Confirming the accurate performance of a company's process controls ensure compliance to the QMS requires calibrated test equipment with full traceability.

BRC Issue 8 Clause 4.10.3.4

"Metal detector checking procedures shall be based on good practice and shall as a minimum include the following:

- Use of test pieces incorporating a sphere of metal of a known diameter selected on the basis of risk. The test pieces shall be marked with the size and type of test material contained.*
- Tests carried out using separate test pieces containing ferrous metal, stainless steel and typically non-ferrous metal, unless the product is within a foil container where ferrous only may be applicable."*

Can't find what you are looking for?

It's truly fascinating and also quite scary to see the range of foreign bodies that can find their way into food, even when it's subjected to minimal processing. As such, some customers sometimes wish to encapsulate and test against a wide range of contaminants including lead shot, metal nuts &, bolts and even pieces of our own detectable plastics.

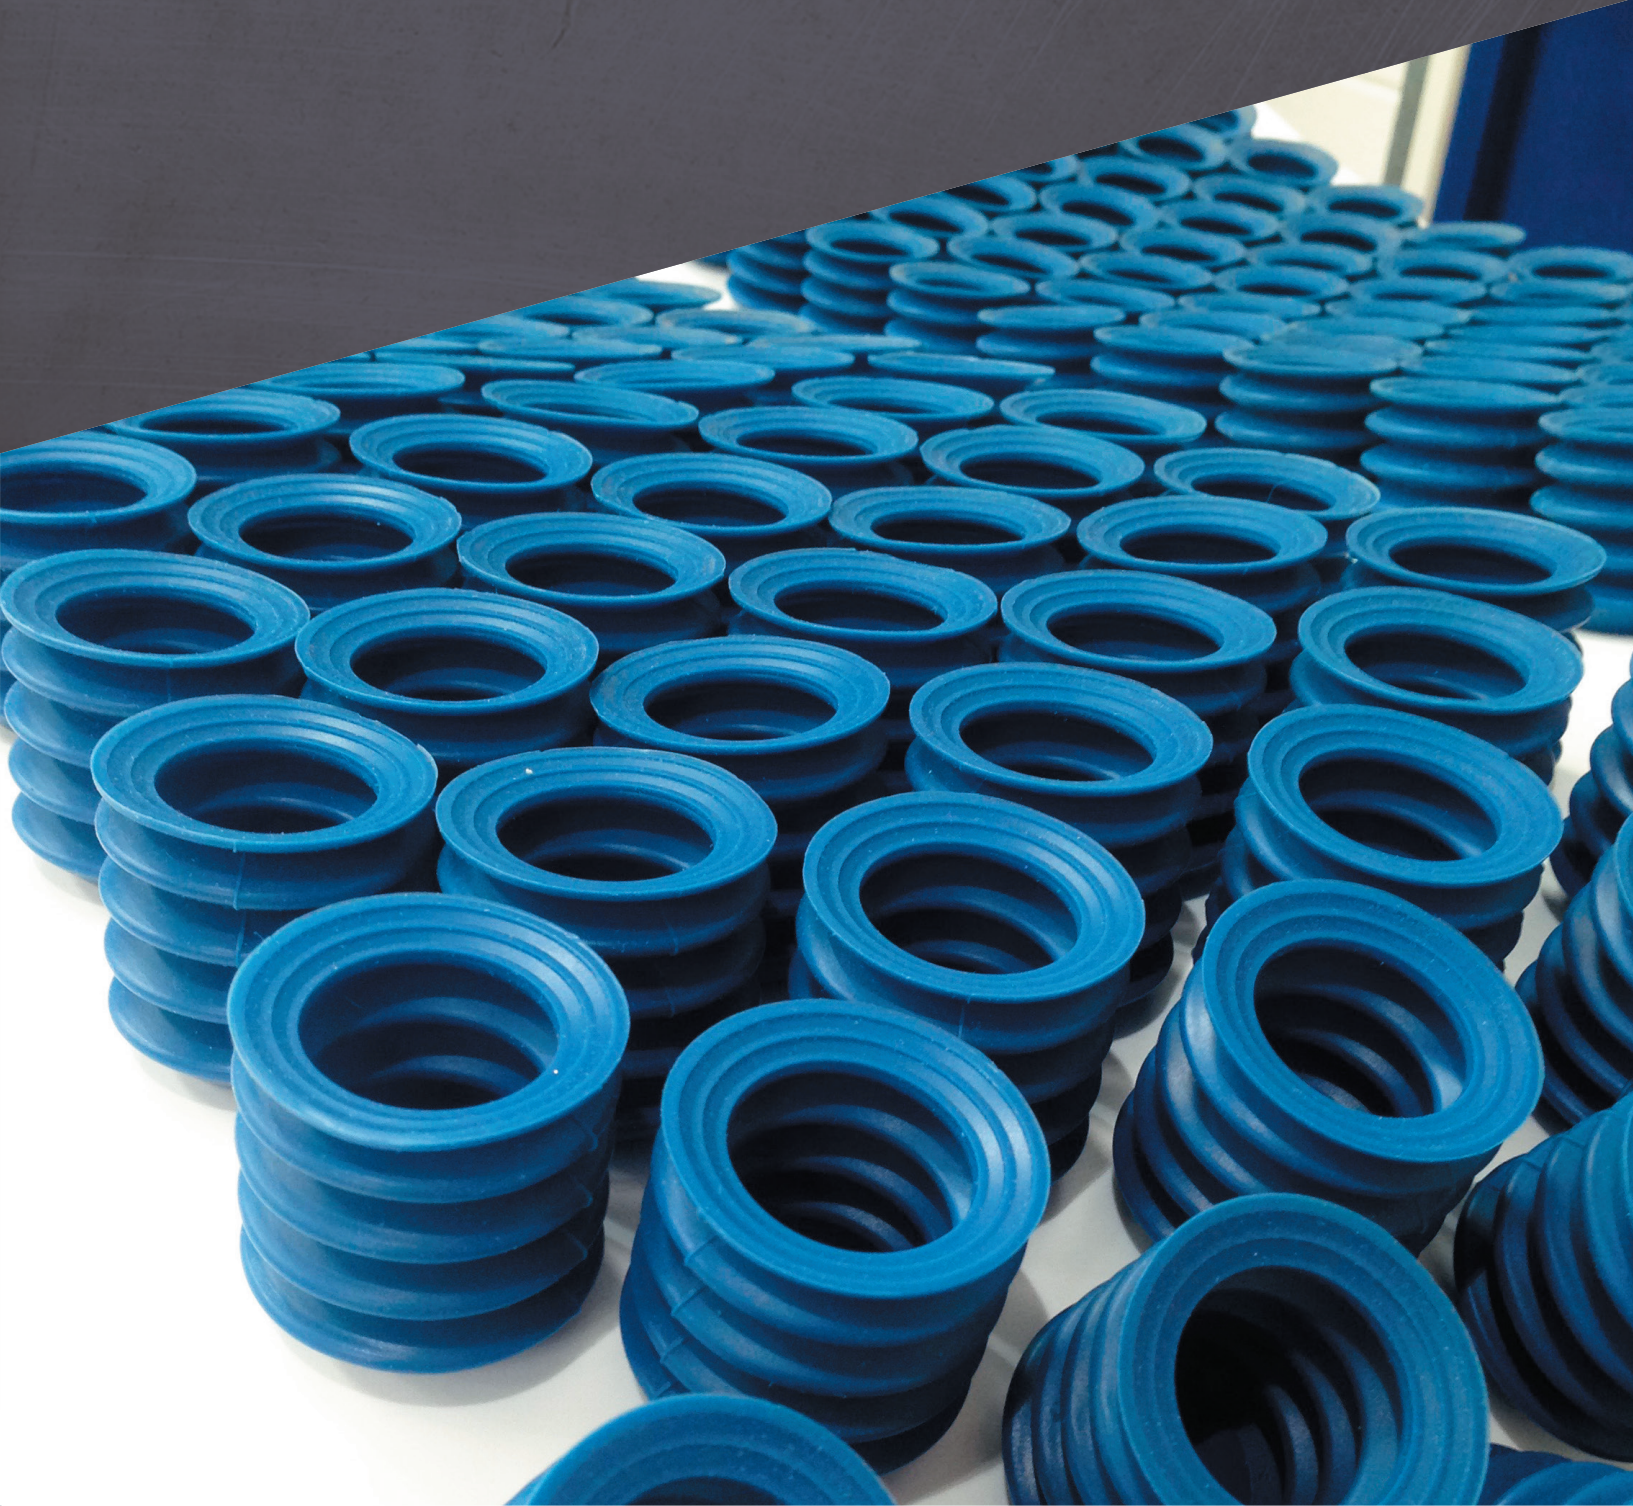

Customers sometimes require very specific shapes and sizes of test pieces to accommodate their production process. No matter how obscure your requirements, we pride ourselves on taking the time to offer customers a tailored product at a fair price. To discuss your needs, please call our sales team with as much requirement information as possible.

8 Engineering

Vacuum depanner belts with silicone suction cups are widely used throughout the baking industry as a fast and effective method of extracting bakery products from oven pans on a moving conveyor belt. The heat and speed of this process results in inevitable wear on silicone based suction cups. BST metal detectable silicone suction cups are designed to reduce the risk of silicone fragments contaminating food products during the depanning process. The cups contain an evenly dispersed metal detectable additive, making them detectable by correctly calibrated in line metal detection systems. Our food grade metal detectable and x-ray visible retaining clips are designed to securely fit our range of detectable suction cups onto bakery depanner belts.

LPS food grade lubrication with its DETEX metal detectable caps and actuators makes an ideal lubricant range for food production environments. The aerosols use a CO2 rather than liquid propellant, meaning you can utilise more product out of the can than most other brands which use liquid propellants.

Soft Suction Cups (40mm)

Plain Terracotta:	CU3CSC4017MT
Plain Light Blue:	CU3CSC4017MB
Size:	40 x 40 x 14mm
Pack Size:	100

Soft Suction Cups (36mm)

Plain Terracotta:	CU3CSC3617MT
Size:	36 x 36 x 14mm
Pack Size:	100

Soft Suction Cups (25mm Bore)

Plain Terracotta:	CU3CSC4027MT
Size:	40 x 40 x 25mm
Pack Size:	100

Soft Suction Cups (70mm High)

Plain Terracotta:	CU1SCPR4014570MT
Size:	40 x 70 x 14mm
Pack Size:	100

Hard Suction Cups (40mm)

Plain Blue:	CU1HCPR4019MB
Ringed Blue:	CU3CHC4019MB
Size:	40 x 40 x 14mm
Pack Size:	100

Hard Suction Cups (25mm Bore)

Plain Blue:	CU1HCPR402550MB
Size:	40 x 50 x 25mm
Pack Size:	100

You can leave a review about any product using our website. Good or bad, we want to hear your thoughts! Just log in to your account, find the product you wish to review and get typing!

You can also ask us questions using our online chat or through our 'Frequently Asked Questions' in the Support Centre.

Long Neck Hard Suction Cups

Ringed Blue:	CU3CLC4019MB
Size:	40 x 50 x 12mm
Pack Size:	100

Muffin Suction Cups

Small 46x33x17mm		CU4MMC18517MT
Medium 66x44x17mm		CU4MMC26317MT
Large 80x45x24mm		CU4MMC31817MT
Pack Size		200

Engineering ~ BST Retaining Clips

Single Round Retaining Clips

6.6mm Bore:	CU5RSR66DB
8.0mm Bore:	CU5RSR80DB
9.0mm Bore:	CU5RSR90DB
9.5mm Bore:	CU5RSR95DB
Pack Size:	100

Single Hex Retaining Clips

8.0mm Bore:	CU5RSX80DB
9.0mm Bore:	CU5RSX90DB
Pack Size:	100

Double Hex Retaining Clips

8.0mm Bore:	CU5RDX80DB
9.0mm Bore:	CU5RDX90DB
Size:	16mm deep
Pack Size:	100

Long Neck Retaining Clips

Long Neck:	CU5RLR80DB
Size:	9.0mm x 30mm deep
Pack Size:	100

Blank Retaining Clips

Product Code:	CU5RSB00DB
Size:	No bore
Pack Size:	100

BST Retaining Tool

Product Code:	CU3TIN*0NB
Size:	8mm & 9mm Hex
Pack Size:	1

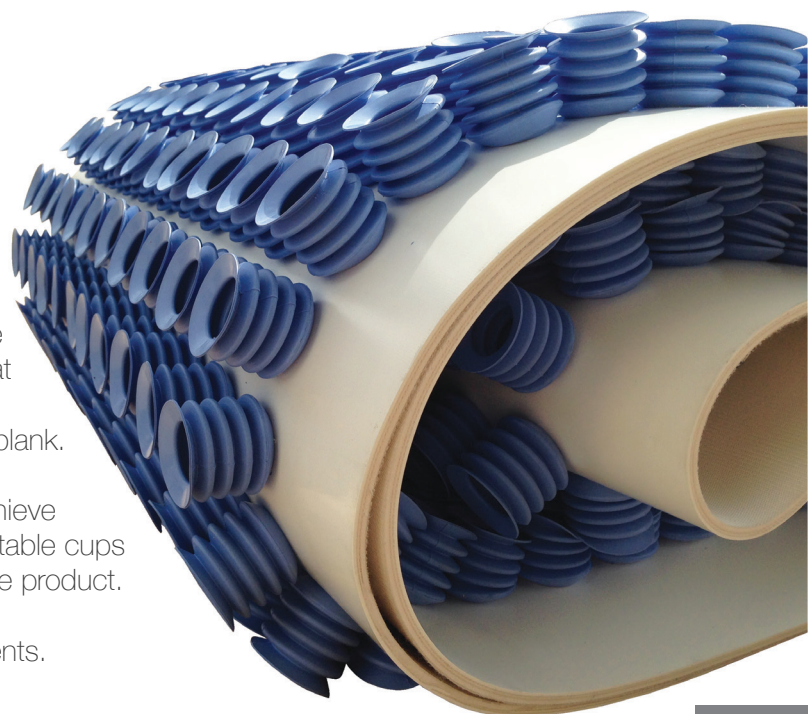

BST Depanner Belts

BST have 30 years' experience in the supply of vacuum depanner belts, which are widely used throughout the baking industry.

Our food grade belts are three ply fabric backed with a smooth white PVC finish on the product facing side. These belts are strong, highly durable, chemical resistant and heat resistant to 166°C. Belts can be supplied pre-loaded with detectable retainers and suction cups or can be supplied blank.

We supply a wide range of detectable retaining clips to achieve varying reach and airflow, as well as a wide range of detectable cups to achieve various levels of flex and optimum suction on the product.

Please call +44(0)1302 775208 to discuss your requirements.

Food Grade Machine Oil

Product Code: PR01316DB

Size: 376ml

Pack Size: 1

Food Grade Silicone Spray

Product Code: PR01716DB

Size: 454ml

Pack Size: 1

Belt Dressing Spray

Product Code: PR02216DB

Size: 445ml

Pack Size: 1

Food Grade Chain Lubricant

Product Code: PR06016DB

Size: 425ml

Pack Size: 1

Heavy Duty Silicone Spray

Product Code: PR51516DB

Size: 439ml

Pack Size: 1

Foodlube Penetrating Oil

Product Code: PR57316DB

Size: 357ml

Pack Size: 1

Sugar Dissolving Fluid

Product Code: PR57716DB

Size: 427ml

Pack Size: 1

K2 Electronic Cleaner

Product Code: PR57116DB

Size: 416ml

Pack Size: 1

Penetrating Grease Spray

Product Code: PR06716DB

Size: 420ml

Pack Size: 1

Engineering ~ Trigger Bottle & Cloth

Metal & x-ray detectable trigger sprayer with adjustable nozzle

Want to know more?

LPS® is a leading food-grade MRO chemical manufacturer that developed the innovative technology, DETEX™ to help reduce the risk of foreign object contamination during food and beverage processing.

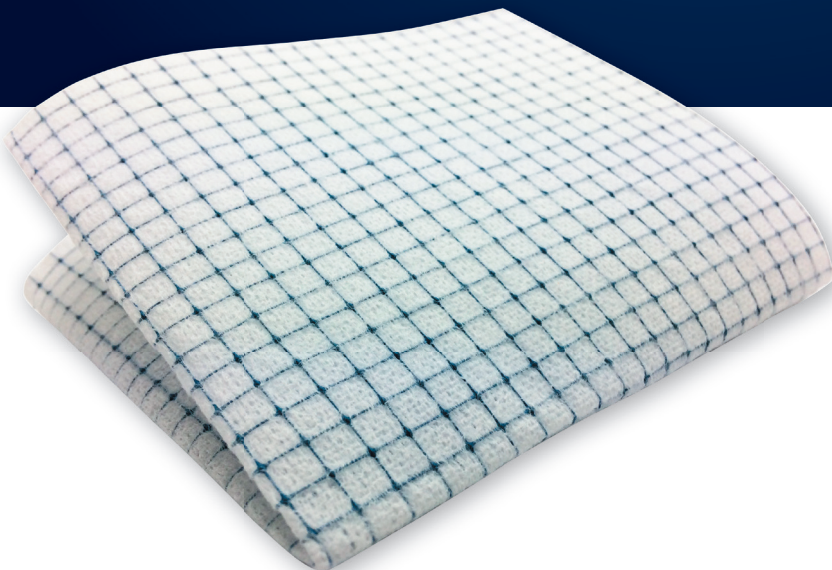

All DETEX™ components are Metal and X-Ray detectable and are capable of detection by conventional metal detection systems. These products are high performance, food safe maintenance chemicals that are engineered to clean, lubricate and protect food processing equipment. BST are a proud partner of LPS®, exclusively distributing DETEX™ products throughout the UK food processing industry.

- ✓ Only 2% propellant means up to 28% more usable product compared to many other brands
- ✓ Unique spray direction indicator which ensures the can is emptied
- ✓ The can will continue to spray whilst inverted for ease of use
- ✓ Fine jet technology for accurate spraying
- ✓ Cost cutting consolidation programme available
- ✓ Competitive pricing with improved rates for high volume users
- ✓ Reduce health and safety issues with metal and x-ray detectable caps and actuators

Detex Empty Trigger Bottle

Product Code:	PR57928DB
Size:	828ml
Pack Size:	1

MX

Metal Detectable Cloth

Product Code:	PRITW-LPS50100MB
Size:	254 x 305mm
Pack Size:	1

M

A Profile Extrusion

Product Code:	PR2ES1MB
Size:	Bespoke
Pack Size:	25m Roll

Box Profile Extrusion

Product Code:	PR2ES2MB
Size:	Bespoke
Pack Size:	25m Roll

Standard Round Extrusions

Product Code:	PR2ES**MMB
Size:	3,4,5,6,7,8 & 10mm
Pack Size:	25m Roll

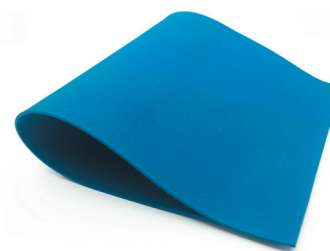

Standard Square Extrusions

Product Code:	PR2ES**MMB60
Size:	4mm & 5mm
Pack Size:	25m Roll

Silicone Rubber Sheetting

Product Code:	PR8SS0**EMB
Thickness:	1.5mm,3.0mm,5.0mm
Pack Size:	1.2m x 1.0m PPM

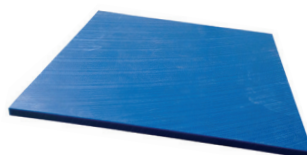

Neoprene Rubber Sheetting

Product Code:	PR6NR0**MB
Thickness:	1.5mm,3.0mm,5.0mm
Pack Size:	1.0m x 1.0m PPM

Neoprene Fabric

Product Code:	PR1NS8055MB
Size:	1.25m x 1.0m
Pack Size:	1.25m x 1.0m PPM

UHMW-Pe Sheetting

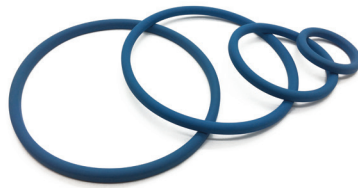

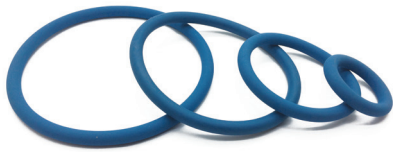

Product Code:	PR1US**EMB
Thickness:	10mm - 50mm
Pack Size:	2.1m x 1.0m PPM

UHMW-Pe Rod

Product Code:	PR1URD**EMB
Size:	Ø 20mm - Ø 50mm
Pack Size:	1.0m PPM

BST RJT O-Ring Gaskets

Product Code:	PRRJT**DB
Size:	1", 2", 3", 4"
Pack Size:	1

BST DIN D-Ring Gaskets

Product Code:	PRDIN**DB
Size:	1", 2", 3", 4"
Pack Size:	1

BST Tri-Clamp Gaskets

Product Code:	PRTRI**DB
Size:	1", 2", 3", 4"
Pack Size:	1

Bespoke Solution Services

BST specialise in developing new products to address contamination risks. We can draw on an extensive network of specialised British manufacturers, many of whom we have formed close partnerships with over generations. We have at our disposal a wide range of detectable food safe plastics and rubbers, including variants of Polypropylene, Polyethylene, Polyurethane, Silicone and Nitrile.

Examples of bespoke developments include pick and place suction cups, silicone extrusions, o-rings, gaskets and machinery parts – all made with BST's detectable materials.

Don't wait for an audit non-conformance or even worse a recall! Speak to BST and let us help you address the Problem at its source. We would be pleased to visit you on site to help us gain a true understanding of your needs and deliver you the best solution.

9 Antibacterial

SteriTouch® is the leading UK brand in antimicrobial technology, with a global presence in healthcare and consumer goods. When SteriTouch additives are incorporated into a product, they offer continuous protection against cross infection and dramatically reduce the risk of the spread of pathogenic germs and moulds including E.coli, MRSA and Salmonella.

Our antibacterial product range is ideal for places of high risk cross infection such as hospitals, doctors, care homes, veterinary services, schools, banks, kitchens and reception areas.

BST Antibacterial J800

Product Code:	ST1J800AW*
Body Colour:	White
Ink Colour:	B,K,R,G
Pack Size:	25

BST Antibacterial P950

Product Code:	ST1P950AW*
Body Colour:	White
Ink Colour:	B,K
Pack Size:	25

BST Antibacterial Brass Eco

Product Code:	ST1E210AW*
Body Colour:	White
Ink Colour:	B,K,R,G
Pack Size:	50

BST Antibacterial Nickel Eco

Product Code:	ST1E2100AW*
Body Colour:	White
Ink Colour:	B,K
Pack Size:	50

BST Antibacterial Fineliner

Product Code:	ST1L550AW*
Body Colour:	White
Ink Colour:	B,K
Pack Size:	10

BST Antibacterial Felt Tip

Product Code:	ST1F700AW*
Body Colour:	White
Ink Colour:	B,K
Pack Size:	10

BST Antibacterial Clipboard

Product Code:	ST1CBA4AW
Size:	230 x 55 x 355mm
Pack Size:	1

Antibacterial Keyboard

Product Code:	ST1KB1AW
Pack Size:	1

Antibacterial Mouse

Product Code:	ST1M1AW
